

FAQs for Cloud Infrastructure Setup

1. Is it mandatory to use Azure?

A. No, you are free to use any Cloud Technology. Having said that, we have allocated free Azure credits (Rs.8000 per RG (per team)) which you can leverage. Please be mindful of the usage.

2. I am new to Azure. Will I get assistance to login and create services or resources on Azure?

A. You can take help of this quick guide for reference and start creating resources on Azure - <https://github.com/blend-ritish/hackathon>

But in case you are stuck and needs assistance, Tech Committee can help.

3. I am new to the Cloud Technology, and like to use other cloud providers like AWS/GCP/OCI etc., will I get any assistance for creating services on these Cloud accounts?

A. Mentors can help you. Tech Committee can help you only with Azure services.

4. Are there any restrictions on the Azure services we can use?

A. No.

5. Can I use my own Azure/AWS/GCP/OCI account for the Hackathon?

A. Yes, unless it is not linked to any organization.

6. Can we mix cloud providers in our solution (e.g., Azure + AWS)?

A. Yes.

7. Will I get assistance to create or use resources in technologies like Snowflake, Databricks etc.?

A. Mentors can help you.

8. What happens to the Azure resources that I have created, post Hackathon?

A. Will be deleted.

9. What if the Free credit allocated to me on Azure exceeds during Hackathon?

A. Ideally it wouldn't. Please be mindful of the usage though.

10. Can I use any other Region in Azure apart from the one allocated to my RG?

A. No. Please create all the resources only in the Region allocated to your RG.

11. Can I create multiple resources of same type/kind on Azure?

A. Yes. Except, Azure AI Foundry and App Service Plan, you can create multiple resources of same type/kind.

12. Can I get help to fix my laptop, code, Project etc.?

A. No. Tech Committee is limited to Azure Infrastructure. Any issues apart from the Azure infra, please reach out to the Mentors.
